Mission :

The ISI Mission is to lead, support and promote the understanding, development and good practice of statistics worldwide, by providing the core global network for statistics. This is reflected in their *slogan*.

Statistical Science for a Better World

Objectives :

- To lead, support and promote the international statistical community.
- To stimulate and disseminate research, best practice and advancement in statistical science and statistical education.
- To speak up for the profession on topical statistical issues.
- To advocate and foster statistical literacy, the use of statistics and data in decision making by governments, businesses and individuals.
- To grow the statistical community in developing countries and help it to be more inclusive.
- To promote an understanding of statistics as a force for improving people's lives.
- To advance the development of young statisticians and to encourage the continuing participation of older members.
- To promote and develop networking within members.
- To function effectively and within its budget.
