# IMPLEMENTATION & CHALLENGES OF mhealth IN CLINICAL PRACTICE

17/2/2023

3:00-4:30PM

Webinar  
via Webex

Registration: [shorturl.at/brvW2](https://shorturl.at/brvW2)

**SPEAKER** ➔

**Assoc. Prof. Dr.  
Adina Abdullah**

- Head, Department of Primary Care Medicine, UMMC
- Co-lead, mHealth & Telehealth Division, UM EHealth Unit

**Synopsis:** mHealth had taken centre stage in the transformation effort post COVID-19 pandemic. In the 2005 World Health Assembly resolution on eHealth, the WHO urged its member states “to consider drawing up a long-term strategic plan for developing and implementing eHealth services...to promote equitable, affordable and universal access to their benefits”. Eighteen years on, despite much progress in the development of mHealth interventions, there is much to do to ensure more of validated mHealth tools are implemented in routine clinical practice. In this webinar, usual steps in implementation of mHealth tools in clinical practice and its challenges will be presented and the possible steps to overcome them will be discussed.
